v4.08.08

StormWise

formerly *icpi*

RELEASE NOTES

(v4.08.08 – January 22, 2026)

A separate installation guide is available with the installation download link:

https://streamline.tech/stormwise-download-links-and-resources-v1

This release updates the StormWise installer to reintroduce compatibility with Windows Server 2022. No computational logic, numerical models, or application functionality have been modified as part of this update. The change is limited to installer operating system detection and support validation. *This release does not include a database change from StormWise v4.08.03.*

Please note: StormWise v4.08.07 and later include the new license manager (StormWise Access Manager). The 'Who's Online' feature is no longer available due to enhanced administrative features included in the release through the new License Management Portal.
